

“LOW” Planter

Sheet code: **FIAR005**

Drawing code:

Revision: **22/01/2019**

Designer:
Bellitalia Design Department

Product: Modular, monolithic planter model “LOW”, with rectangular section, fitted with a **water reserve system** to guarantee the soil the proper humidity level, avoiding the dispersion of internal water. The planter is supported by a base equipped with a **levelling system**.

Dimensions: length: 1000 mm;
width: 800 mm;
height: 600 mm (variable);
total weight: 521 kg;
capacity: 227,2 litres.

Material: The planter can be manufactured using reconstituted natural marble stones or white granite conglomerate.

Reinforcing: The self-levelling base is reinforced and fitted with bushes that permit its lifting and levelling. The planter is also reinforced and endowed with bushes that permit its lifting, and that are covered with a Bellitalia plate after the placement.

Finishing: All surfaces are sandblasted, except for the upper rim that can be polished, to give the product a shiny effect, or bush-hammered, for a rough appearance. Surfaces are then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All edges are rounded or made blunt.

Handling: Use appropriate equipment when handling.

Installation: Level the bolts of the base and fasten the planter's position.
