

“CASSIOPEA” Flowerbed

Sheet code: PRAR001

Drawing code: 002-2010-A02P

Revision: 22/01/2019

Designer:

Arch. Lorenzo Tosolini

Product:

Centre square flowerbed model “CASSIOPEA”, composed by 54 modules fitted with male-female centre squares to simplify the alignment during installation. The modules have both a containment and a protective function of the green area, and provide a comfortable seat surface along the entire perimeter. Possibly equipped with LED spotlights for nighttime illumination.

Dimensions:

external diameter: 16862 mm;
internal hole diameter: 15574 mm;
height: 675 mm;
total weight: about 40500 kg.

Material:

All the flowerbed's elements can be manufactured using reconstituted natural marble stones or white granite conglomerate.

Reinforcing:

The flowerbed is reinforced and fitted with bushes that permit its lifting.

Finishing:

All concrete visible surfaces are completely sandblasted, and then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All edges are rounded or made blunt.

Handling:

Use appropriate equipment when handling.

Installation:

Make sure the flooring is perfectly horizontal. Simply place the elements on the flooring and aligning them with the centres squares, paying attention to keep unchanged the measure at the centre of the base's internal vertexes.
