A-A

**Product:**

Linear modular bench model “LOUNGE LW 2340” for four, composed by a monolithic seat possibly equipped with a wooden covering, which offers a comfortable seat at both high and low temperatures.

**Dimensions:**

length: 2340 mm;  
width: 585 mm;  
height: 435 mm;  
total weight: about 1142 kg.

**Material:**

The bench can be manufactured using reconstituted natural marble stones or white granite conglomerate. The seat is manufactured in only one concrete casting. The wooden slats are offered with three different types of essence: pine, okumè or exotic wood (please see respective material sheet). All slats have a section of 55x35 mm, except for the head one that is radiused accordingly with the seat.

**Reinforcing:**

The bench is reinforced and endowed with bushes that permit its lifting, and that are covered with a Bellitalia plate after the placement.

**Finishing:**

The bench's surfaces can be sandblasted or natural smooth, and are then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All wooden elements in pine and okumè can be impregnated and painted with a protective varnish, the exotic wood is impregnated and, upon request, varnished. All edges are rounded or made blunt.

**Handling:**

Use appropriate equipment when handling.

**Installation:**

Simply lay the bench on the flooring, accordingly with the chosen layout.
