

## “ERACLEA WSD” Bench

Sheet code: **PAAR067**

Drawing code:

Revision: 10/01/2019

Designer:

Arch. Matteo Ceschini

**Product:** Linear bench model “ERACLEA WSD”, composed by a light, supporting base arranged to lodge wooden slats that offer a comfortable seat at both high and low temperatures. Two single backrests are fastened to the seat.

**Dimensions:** length: 2200 mm;  
width: 610 mm;  
height: 784 mm;  
total weight: 514 kg.

**Material:** The bench can be manufactured using reconstituted natural marble stones or white granite conglomerate. The covering is composed by 10+8 wooden slats offered with three different types of essence: pine, okumè or exotic wood (please see respective material sheet). All slats have a section of 55x35 mm, except for the head ones that have a section of 53x120 mm. Slats are fastened to the seat through screws and three stainless steel plates, arranged to ease the water discharge under the slats.

**Reinforcing:** The bench is reinforced with bushes and a double electric welded frame.

**Finishing:** All bench’s surfaces are sandblasted, except for the upper rim that can be polished, to give the product a shiny effect, or bush-hammered, for a rough appearance. Surfaces are then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All wooden elements in pine and okumè can be impregnated and painted with a protective varnish, the exotic wood is impregnated and, upon request, varnished.. All edges are rounded or made blunt.

**Handling:** Use appropriate equipment when handling.

**Installation:** Simply place on the flooring.
