

"CITTA" Litter Bin

Sheet code: CECL008

Drawing code: AC33040101

Revision: 02_01/10/2015

Designer:
Bellitalia Design Department

Product: Litter bin model "CITTA", composed by a U-shaped base and a covering, with a copper (or other metal) band in between, an overturning internal bin equipped with a lock and a bag holder.

Dimensions: length: 630 mm;
width: 560 mm;
height: 1080 mm;
total weight: 335 kg;
capacity: 105 litres.

Material: The bin can be manufactured using reconstituted natural marble stones, white granite or grey concrete conglomerate. Between the base and the covering there is a copper or stainless steel band, with a height of 20 mm and a thickness of 0,8 mm. The internal bin and the bag holder frame are in steel. The covering is fastened through a steel stirrup and steel and aluminium bolts. The internal bin is fastened through 2 galvanised steel screws.

Reinforcing: Both the base and the covering are reinforced and fitted with bushes that permit all elements' fastening.

Finishing: All visible concrete surfaces are completely sandblasted and then covered with a transparent anti-decay coating, or, upon request, with nanotechnology and/or anti-graffiti products. All steel parts are treated by a hot dip galvanisation and painted with RAL7021. The copper band is painted with a protective coating for a durable shiny appearance, while the stainless steel band undergoes a satin finish treatment.

Handling: Use appropriate equipment when handling.

Installation: Simply place on the flooring.
