

## “PLUTONE” Bollard

**Sheet code:** *DIPP003*

**Drawing code:** *AD01100202*

**Revision:** *23/01/2019*

**Designer:**  
*Bellitalia Design Department*

**Product:** Monolithic bollard model “PLUTONE”.

**Dimensions:** external diameter: 400 mm;  
maximum height: 704 mm;  
total weight: 165 kg;

**Material:** The bollard can be manufactured using reconstituted natural marble stones, white granite or grey concrete conglomerate.

**Reinforcing:** The bollard is reinforced and fitted with a bush that permits its lifting.

**Finishing:** The bollard's surface can be polished, to give the product a shiny effect, or bush-hammered, for a rough appearance. The surface is then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All edges are rounded or made blunt.

**Handling:** Use appropriate equipment when handling, screwing the eyebolt to the bush.

**Installation:** Simply place the bollard on the flooring and, if required, replace the lifting eyebolt with the specific brass screw.
