A-A

Product: Linear bench model “VENEZIA WOOD” with wood, composed by a light, supporting base arranged to lodge wooden slats that offer a comfortable seat at both high and low temperatures.

Dimensions: length: 1900 mm;
width: 450 mm;
height: 450 mm;
total weight: 266 kg.

Material: The bench can be manufactured using reconstituted natural marble stones or white granite conglomerate. The covering is composed by 10 wooden slats offered with three different types of essence: pine, okumè or exotic wood (please see respective material sheet). All slats have a section of 55x35 mm, except for the head ones that have a section of 70x120 mm. Slats are fastened to the seat through screws and three stainless steel plates, arranged to ease the water discharge under the slats

Reinforcing: The bench is reinforced with bushes and an electric welded frame.

Finishing: All surfaces are sandblasted, except for the seating surface that can be polished, to give the product a shiny effect, or bush-hammered, for a rough appearance. Surfaces are then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products.. All wooden elements in pine and okumè can be impregnated and painted with a protective varnish, the exotic wood is impregnated and, upon request, varnished. All edges are rounded or made blunt.

Handling: Use appropriate equipment when handling.

Installation: Simply place on the flooring.
