

## “DNA” Bench

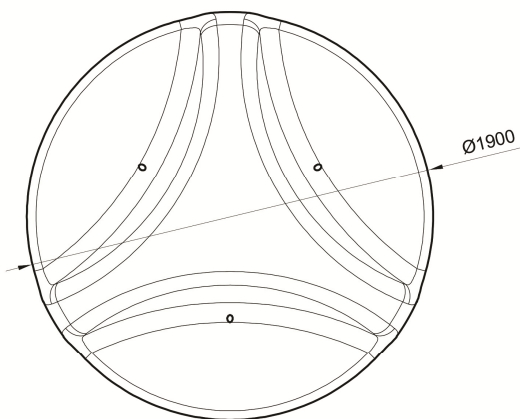

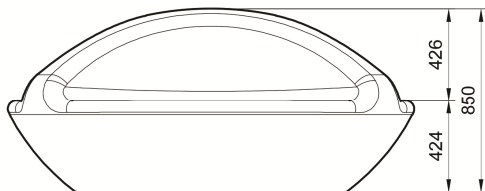

**Sheet Code:** PAAR123

**Drawing Code:**

**Revision:** 10/01/2019

**Designer:**

Alessandro Lenarda

**Product:**

Bench with modular circular section mod. "DNA", consisting of a monolithic bench that integrates three radial sitting spaces in its composition. The opportunity offered by the bench is that of a 360 ° view of the surrounding environment thanks to the three niches in which the sitting spaces are obtained. The peculiarity is also to be able to aggregate more elements giving space to larger seating surfaces but above all leaving a multiplicity of aggregations that can best be integrated with the places to be enhanced.

**Dimensions:**

Diameter: mm 1900;  
Height: mm 850 (424);  
Total Weight: 2360 kg;

**Material:**

The bench can be manufactured using reconstituted natural marble stones or white granite conglomerate.

**Reinforcing:**

The bench is reinforced and equipped with bushes that permit its lifting, and that are covered with a Bellitalia plate after the placement.

**Finishing:**

All surfaces are sandblasted, except for the seating surface that can be polished, to give the product a shiny effect, smooth formwork or bush-hammered. Surfaces are then covered with a transparent anti-decay coating, or, upon request, with anti-graffiti products. All edges are rounded or made blunt.

**Handling:**

Use appropriate equipment when handling.

**Installation:**

Place the elements on the flooring and make sure to follow the tangent seating lines when putting more benches near each other.
