

Max Dimensions:

Height seat: 450 mm | Height planter: 700 mm

Length: 2525 mm | Width: 2525 mm

**DESCRIPTION**

The AL AIN planter is made of galvanised and polyester powder coated steel, thickness 25/10. The main body is a squared cone section. The upper part is curved with a radius of 174 mm, and the planter is internally reinforced by a tube bar structure 50x50x2 mm. On the latter some tubes are fixed to support the seat, in solid exotic wood, T. 40 mm, treated with natural waterproof oils.
