

Max Dimensions:

Height: 415 mm | Width seat: 380 mm

Outer Diameter: 1130 mm | Inner diameter: 400 mm

**Description:**

The seat/tree guard ALCORQUE 1 is made of polyester powder coated steel EN10111DD1, thickness 40/10, (or Corten treated with an oxidation cycle). The steel sheet plates, characterised by a particular "texture" called "New York" laser cut shaped, are welded together through a continuous wire welding then polished. On the lower part of the steel seat are welded 2 strong reinforcing profiles of H 30 mm which follows the shape of the seat. On the bottom of each steel element there are 4 holes, D. 10 mm, useful for ground fixture through appropriate bolts.
